

**REMARKS**

Claims 1-18 and 21-22 are pending in this application. By this Amendment, claims 1, 6, 11 and 16-18 are amended and claims 21 and 22 are added. No new matter has been added. Reconsideration of the application is respectfully requested.

The courtesies extended to Applicant's representative by Examiner Gyorfi during the February 18 personal interview, are appreciated. Applicants' record of the substance of the interview is included in the following Remarks.

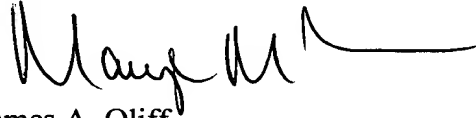

Claims 1-18 are rejected under 35 U.S.C. §103(a) over OmniForm User's Manual for Windows 95 and NT (Caere Corporation 1998) ("OmniForm") and further in view of Special Edition Using Access 97 ("Access"). The rejection is respectfully traversed for at least the following reasons.

As discussed during the personal interview, the combination of OmniForm and Access fails to disclose or suggest generating a database-related input form related with the database defined based on the portion of the data included in the extracted table by relating a table included in the generated database-related data input form with the defined database. As suggested by the Examiner during the personal interview, Applicants herein amend claims 1, 6 and 11 to more clearly recite this feature. For at least these reasons, Applicants submit that the combination of OmniForm and Access fails to disclose or suggest all the features of independent claims 1, 6 and 11, as well as all the features of claims 2-5, 7-10, 12-18 and 21 and 22, which depend therefrom. It is respectfully requested that the rejection be withdrawn.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt allowance of all pending claims are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,

James A. Oliff
